

January 12, 2012

Dear Colleague:

The Israel Ports Company takes great pleasure in extending a personal invitation to you to join us at the 2012 Mid-Term Conference and Board Meeting to be held in Jerusalem between May 21st and 24th.

The Organizing Committee is moving ahead with plans for the conference which include a stimulating professional program, coupled with a port visit and exposure to home grown port technology and initiatives. In order to make your visit memorable, we have put together a social program which will allow you to mingle informally with colleagues from around the globe, and at the same time experience the special historical and spiritual character of Jerusalem, the holy city held dear to Jews, Christians and Moslems. Accompanying persons will join delegates during our official visits to the Jerusalem's treasured sites and will have the opportunity to participate in a supplementary accompanying person's program while delegates are engaged in the conference's professional program.

You are encouraged to visit our website at www.iaph-jerusalem2012.com to learn more about the conference and accompanying logistics. The content at the site is constantly being updated as additional details are being finalized.

We encourage early registration in order to take advantage of the early registration discount (available through February 15th, 2012) and in order to secure a hotel reservation. Please note that holidays are being celebrated the week prior and week following the conference and hotels are likely to be booked as we get closer to the conference date.

If you have any questions, you are welcome to contact our Organizing Committee by e-mail at dovf@israports.co.il (tel. +972-3-565-7060) or the Conference Secretariat responsible for registrations, hotel bookings and other services at iaph@ortra.com (tel.+972-3-638-4444).

Looking forward to personally welcoming each of you this year in Jerusalem,

Sincerely,

Yechiel Leiter
Chairman (Designate)
