

# PIANC

The World Association for  
Waterborne Transport Infrastructure

PIANC Singapore and YP-Com International are pleased to invite all PIANC members and YP delegates to the first ever Biennial Technical Visit (BTV) to be held in Asia!

The 7<sup>th</sup> BTV is a 4-day event with the main theme **Innovations in Maritime Infrastructure**. The event shall be hosted in **Singapore**, a **little red dot** on the world map but a key player in the global maritime industry.

Singapore's maritime history started when **Sir Stamford Raffles** arrived in 1819 and established modern Singapore as a free port which soon became a bustling centre for trade. This year, 2019, marks the 200<sup>th</sup> anniversary since this discovery, and we invite you all on a journey through our history and sharing sessions on innovations for the future of maritime infrastructure.

Registration is now open to all!  
Please RSVP to: [btv2019@pianc.org.sg](mailto:btv2019@pianc.org.sg)
