\*The first canal in Korea, the **Gyeongin-Ara Waterway** was constructed from 2009 to 2011 and started operations in 2012 by Korea Water (K-Water). The main functions of this waterway are flood protection, green logistics, and tourism leisure activities. Gyeongin Ara Waterway is composed of Gyeongin Port, Logistics Complex, and inland waterway.

Hotel Venue

Busan North Port

Busan New Port

#The **Port of Busan** is the largest port in South Korea, located in the city of Busan, South Korea. Busan Port, connecting 500 ports in 100 countries, is the logistics hub port in Northeast Asia in the 21st century. To accommodate rapidly increasing container traffic in the region, we continue to expand the port facilities and its distribution systems, while accelerating our development of a state-of-the-art New Port.
